Summary:

I can create engaging web applications with a focus on user satisfaction. I use HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB and modern web technologies to create responsive, functional and dynamic website. I want to work with a collaborative and talented team to learn more.

Skills:

- **Expertise:** HTML | CSS | Bootstrap | Tailwind | Daisy UI | JavaScript | ES6 | React
- **Comfortable:** Firebase | Rest APIs | Express.js | MongoDB | JWT
- **Familiar:** Node.js
- **Tools:** VS Code | GitHub | Figma | Netlify | Vercel | NPM | Axios | TanStack | Font Awesome

Projects:

1. FIGHT CLUB, Martial Arts summer camp school website: Live Website | Client Side | Server Side
FIGHT CLUB is a web application with an Admin, Instructor and Student dashboard.

- After sign in, users can access student dashboard and enroll any class.
- If a user is made an instructor by an admin, then, instructor can access the instructor dashboard and post any class.
- An administrator can access the admin dashboard and the administrator can approve or deny any class and send feedback to the instructors. An administrator can make a user an instructor or admin.
- ❖ **Technologies:** HTML, CSS, Tailwind, React.js, Firebase, MongoDB, Express.js.

2. LITTLE CARS, Toy car website for kids: Live Website | Client Side | Server Side
LITTLE CARS is a toy car web application platform for kids.

- After sign in user can view Add A Toy page and post a toy.
- User can leave a review about us in the customer review section on the homepage.
- When user going to All Toys Route, user can see all toys and user can view the product details by clicking View Details button.
- If the user visits the My Toys page, the user can only see his own added toys in descending or ascending order, and the user can edit and delete toys.
- ❖ **Technologies:** HTML, CSS, Tailwind, React.js, Firebase, MongoDB, Express.js.

3. Recipe Haven, Chef and Recipe Platform Website: Live Website | Client Side | Server Side
Recipe Haven is a chef and recipe web application for explore recipe.

- Anyone can see chef, some recipe and recipe book without sign in.
- After sign in user can see chef profile and his recipes by clicking View Recipe button.
- User can add recipe to favorite list by clicking favorite button.
- ❖ **Technologies:** HTML, CSS, Bootstrap, React.js, Firebase, MongoDB, Express.js.
